CERTIFICATION

- **Python programming Course**
- **PostgreSQL | CodeLab (FDC)**
- **React Js | CodeLab (FDC)**

VERSION CONTROL

- **Git & Github**

SKILLS

Frontend

- HTML
- CSS
- Bootstrap

Backend

- ASP.NET
- PHP
- Python

Other

- NLP

LANGUAGES

- ENGLISH (INTERMEDIATE)
- CHINESE (HSK-2)

ABOUT ME

Final-year Computer Science student at the University of Computer Studies, Pyay. Experienced in web development (C#, ASP.NET, PHP, Python) and NLP applications, with a passion for building practical solutions and improving user experience.

PROJECT EXPERIENCE

Language School | WISTERIA

- Developed a web application using HTML, CSS, JavaScript to manage language courses.
- Implemented structured course details, schedules, and user-friendly interfaces for smooth enrollment.

Library Management System

- Built a web-based system using C# and ASP.NET with HTML, CSS, Bootstrap front-end.
- Managed book inventory, tracking, and student records with efficient data handling and responsive design.

Student Forum

- Created a PHP/XAMPP forum for students to share resources and announcements.
- Designed a responsive interface with discussion boards and content management features using bootstrap.

Document Classification

- Developed a system in Python for classifying documents using Bag-of-Words and TF-IDF features.
- Built a user-friendly interface with real-time predictions using Gradio.
